

FinTrust cost operating model

Pricing choices are tied to workload behaviour, commitment risk and account ownership

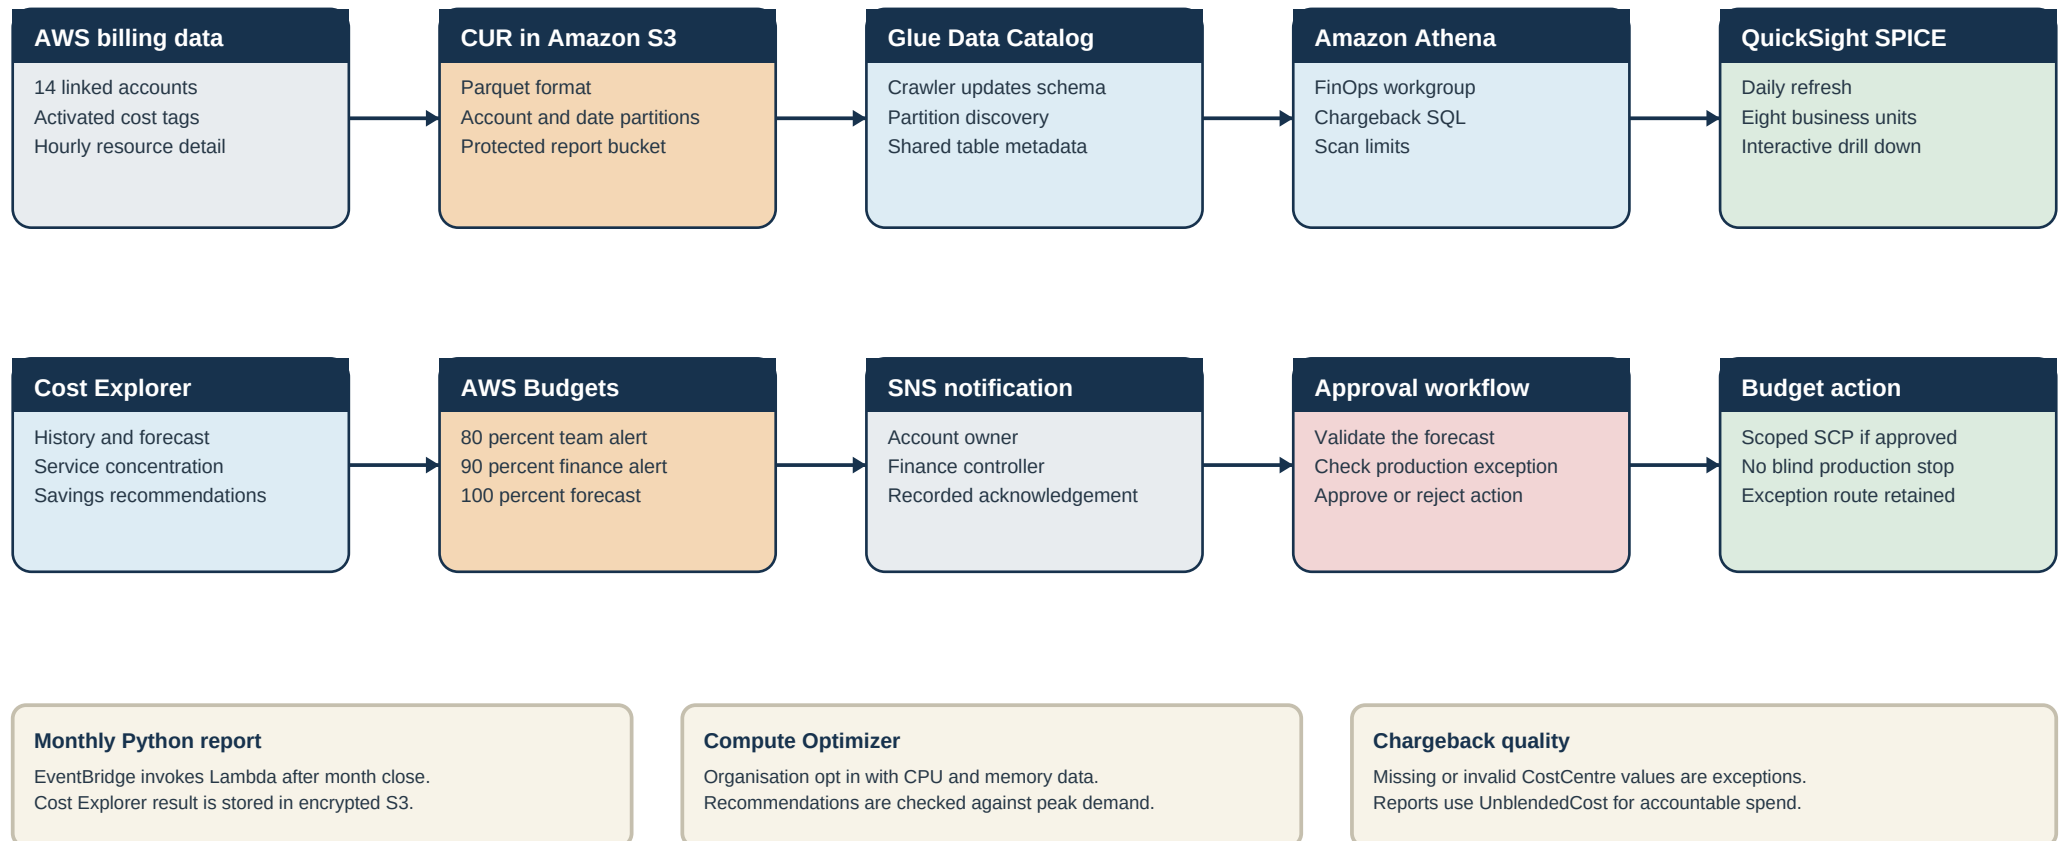

Week 9 | 1 of 5

FinOps reporting and budget controls

Cost data moves from the organisation bill to reports, dashboards and approved action

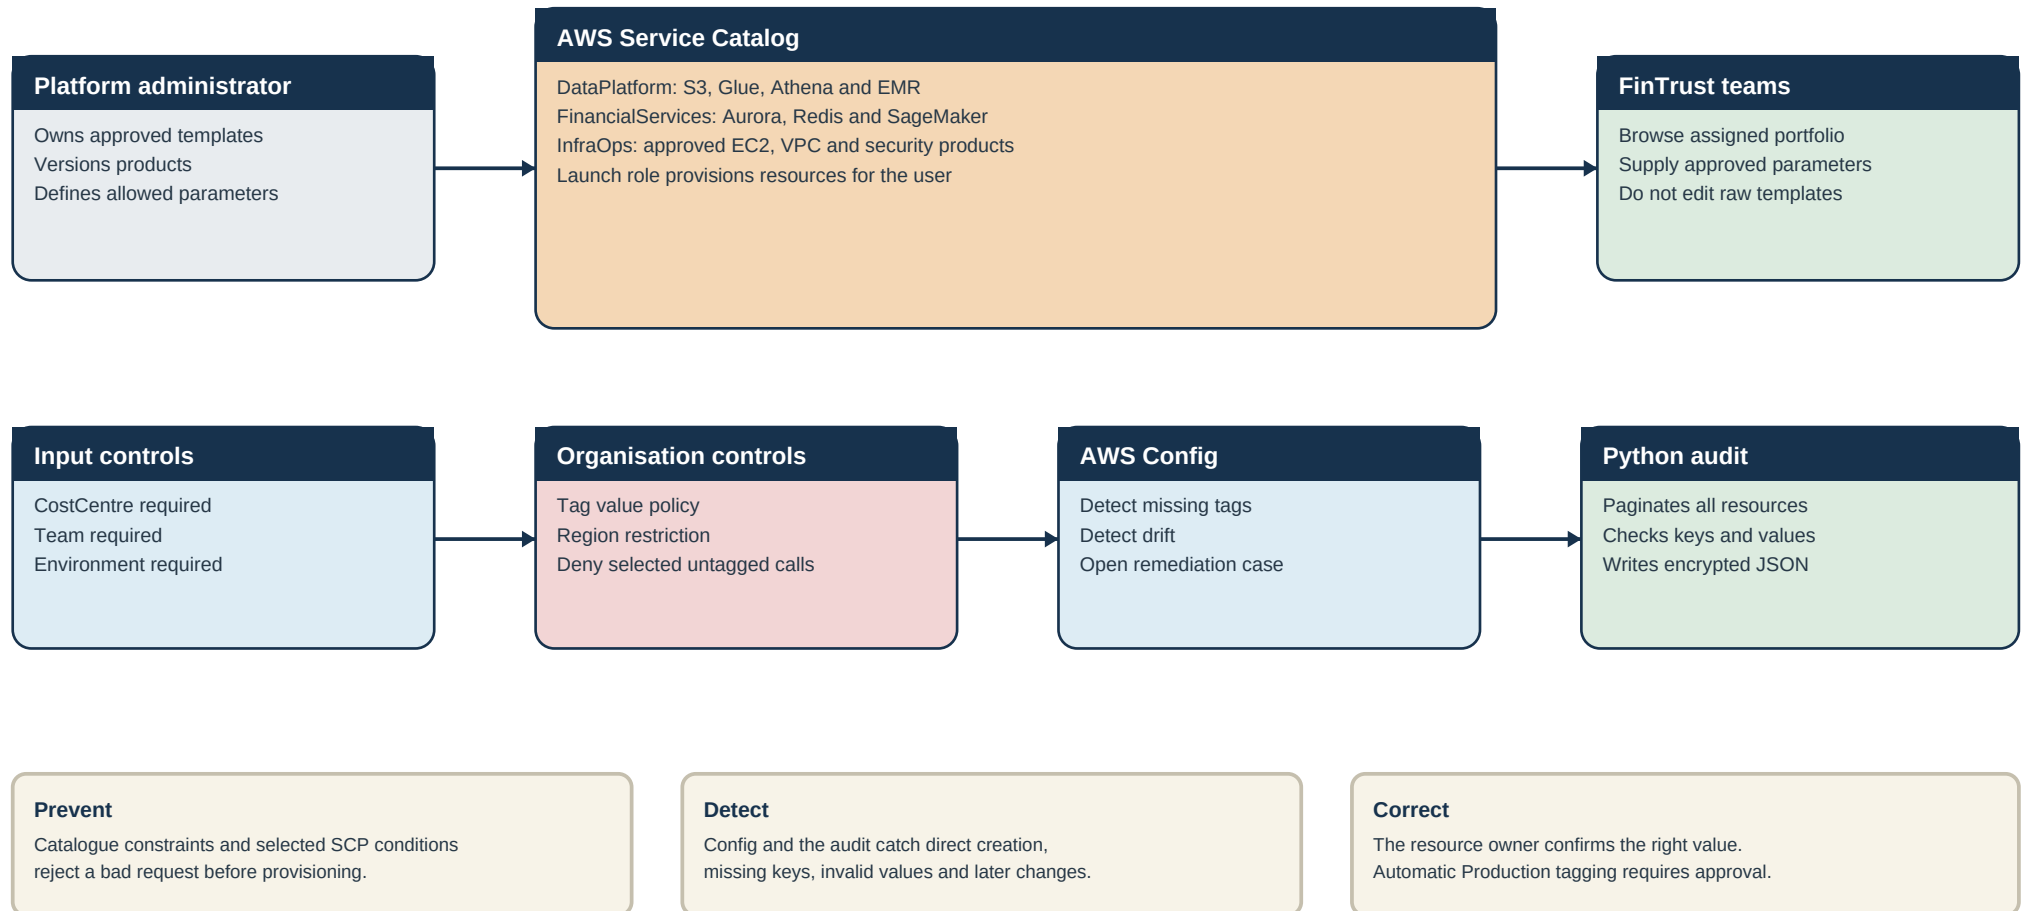

Week 9 | 2 of 5

Governed self service and tag quality

Preventive and detective controls cover catalogue launches, direct API calls and later drift

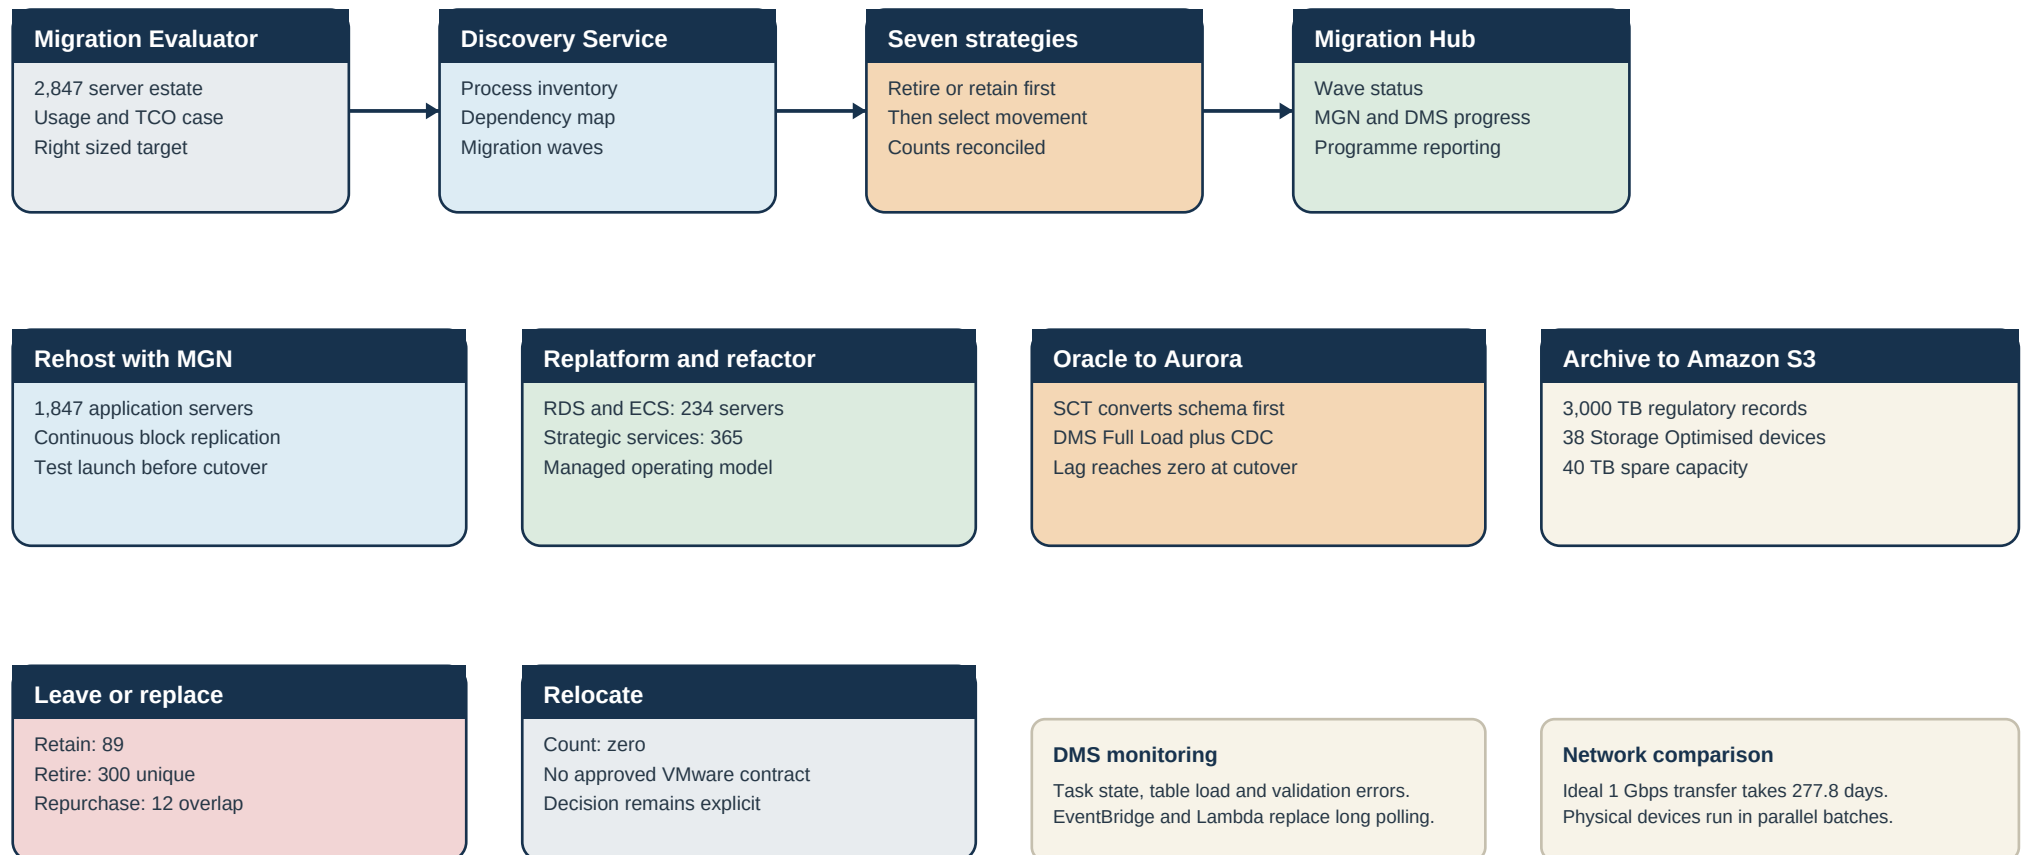

Week 9 | 3 of 5

Migration programme and movement paths

Assessment chooses the strategy before MGN, DMS or physical transfer is used

Week 9 | 4 of 5

Recovery policy and evidence map

Business recovery targets determine the standby model, tests and evidence needed

Week 9 | 5 of 5
